Program Descriptions

Tuesday, September 18

10:00 am Fall Color for the Perennial Garden
Becky McCann OSU Extension Information Associate

Learn how to extend your garden interest into the fall season. With just a little planning, it will be as colorful as spring.

11:00 am Don't Guess—Soil Test
Jonah Johnson OSU Extension Educator, Agriculture

Crops and gardens not doing well; get your soil tested to check nutrient levels for better performance.

12:00 pm Made in the Shade
Michael Loos OSU Extension Educator, Horticulture

Shades gardens can glow with color the same as sunny borders. Learn about a variety of plants that are happy in a shady retreat.

1:00 pm Diseases of Vegetables In Ohio
Eric Draper OSU Extension Educator

Need help dealing with garden pests on your edibles. Learn how to safely handle these garden problems.

2:00 pm Updates on the Emerald Ash Borer
Amy Stone OSU Extension Specialist, EAB

Keep informed on the travels of this pest and learn any new ways of fighting this unwanted little green creature.

Wednesday, September 19

10:00 am Basics of Growing Plants in Containers
Dave Dyke OSU Extension Educator

Learn the techniques for keeping your containers looking spectacular all season. This would include maintenance practices; watering, fertilizing, and design basics.
