

**Gwynne Conservation Area
Natural Resources Interpretive Center (Cabin)
Reservation Policy and Notes**

- Reservation requests must be made at least 30 days prior to the intended use date.
- The reservation form, below, can be printed and returned to the Farm Science Review campus office with the appropriate payment (if applicable).

USE CONDITIONS

- Approved participants must notify the Farm Science Review staff, 135 SR 38 NE, London, Ohio at least 30 minutes prior to their scheduled use. Keys and the appropriate information relative to the use of the facilities will be provided at that time.
- Groups will have use of the Interpretive Center (Cabin) and the Gwynne Conservation Area per the information that was requested and approved on the registration form.
- The facilities are not available after 6 pm weekdays and on weekends without extra expenses being involved.
- Maximum group size is 45 for the Interpretive Center.

The Interpretive Center is equipped with:

- A meeting room with chairs and tables
- Restrooms
- A kitchenette with refrigerator, microwave, gas grill and coffee makers.
- Some audiovisual equipment.

If a group uses the coffee pots or cooking utensils provided, the group is responsible for cleaning, drying and returning the items to their proper places. The group must replace any items used from the refrigerator/freezer unit found in the Interpretive Center, and not belonging to the using group. The group may bring their own meals with them or have their meals catered in the facility. All trash brought in must be removed by the group. Trash bags are provided. The Interpretive Center is to be left in as good as order as the using group found it. No alcoholic beverages are permitted. There are no play areas or playground equipment available. The Interpretive Center is heated and air-conditioned. The group may adjust the thermostat but should return the thermostat to 55 degree in the winter and 80 degree in the summer settings. Propane is the energy source for the heating so that temperature changes should be relatively quick. If furniture is moved, please return to the position you found it in or place it on the carts provided. Users are responsible for any and all damages to the building, equipment and contents occurring during the user's occupation.

Violation of any of the guidelines provided will result in the forfeiture of any uses of the facility by the group.

REMEMBER!!!!

- All trash must be removed from the Interpretive Center.
- Re-adjust the thermostat.
- Turn off the lights, close and lock all doors and windows.
- Return the keys to the Farm Science Review Headquarters Building (if applicable).

Theater or auditorium style offers the greatest number of seats in the smallest space but the lack of tables makes the interaction and writing difficult. (45 people max)

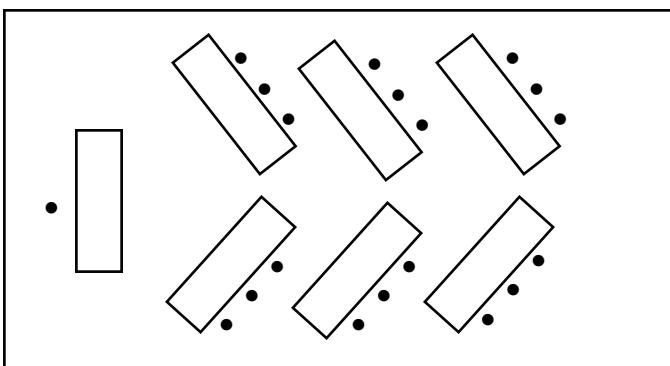

Classroom/Chevron style adds tables and decreases space. It promotes presenter-audience discussion, but inhibits group discussion. For lecture style learning and small group discussions between people at the same or different tables, angle the tables (Chevron style). (6-45 people)

This style can be oriented toward screen.

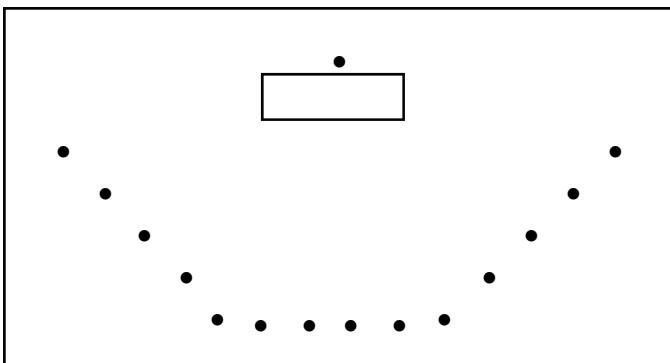

U-Shaped seating allows participants to easily see each other, which promotes group dynamics. Authority is focused in the open end of the U. (15-45 people)

This style can be oriented toward screen.

Herringbone seating is useful for small discussions. It is less formal than classroom style. (6-45 people)

This style can be oriented toward screen.

Facilitating is used for small groups where interactive discussion is shared and documented on easel or other visual. (10-45 people)
